

BIOEASY

BioQuick[®] System

One Step Rapid Test for Drug Residues in Milk

With our new patented one step rapid test, drivers and operators can test raw commingled milk easily with confidence! You can do the testing on the truck, in the lab, at the reception or even on the farm!

Bioeasy is always your reliable partner for the milk quality control!

PROTECT YOUR MILK SAFETY

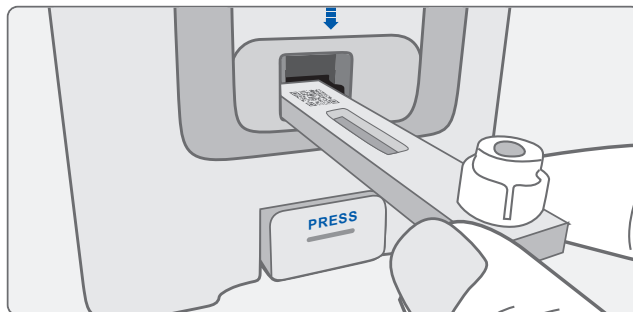

Operation

The BioQuick system will identify the test from the barcode on the cassette, automatically running the test and display the test result after the test is done.

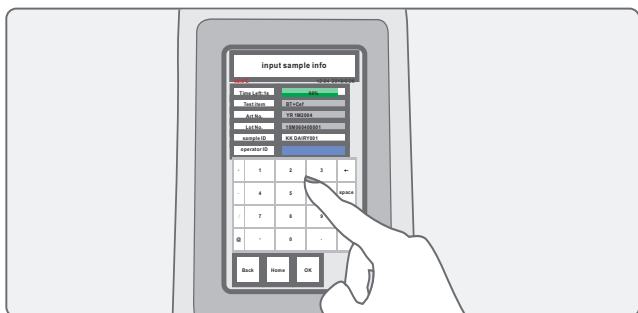

No need for the visual interpretation, so as to eliminate the mistake, be 100% sure of your test results!

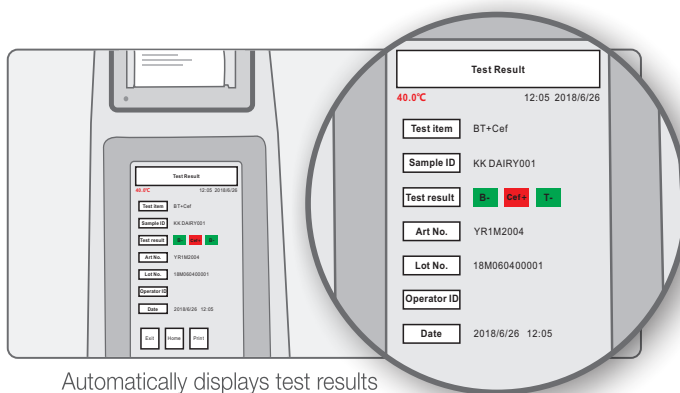

Pipette 200 µl milk and mix well

Insert the cassette

Input sample info

Automatically displays test results
